

CIS 110 Introduction to Computers

ROANOKE CHOWAN COMMUNITY COLLEGE

(WEBSITE: www.roanokechowan.edu)

This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics.

Students will receive a syllabus from the instructor.

Students have access to their grades through Campus Cruiser.
